Dutch Focus Expo

Design Distict  
Art Basel, Miami Dec. 2014

## Exhibition Overview:

The 'Bridge' expo is a showcase of young Dutch talent.

The artistic talent of some native and transplant Netherlands makers, and also the curatorial talents of two young outstanding galleries from Amsterdam.

Andenken Gallery and Kallenbach composed their participating artist invitations with one maxim in mind: 'Let's show makers that blur the boundaries between art and design.'

This ideal put them on to the set of creators you'll find in the following pages.

Many of the makers in this list are both Artists and Designers by title and trade. Many work in the fields of industrial and graphic design as well as in the fine art circles that gained them the invitation to participate in this exhibition.

# Participating Artists:

The background of the entire page is a photograph of a workshop or studio. It features various wooden planks, beams, and panels. In the center, there is a large, light-colored wooden panel with a dark grey triangle on the left and a white triangle on the right. To the left of this panel is a vertical stack of many thin, greyish wooden planks. The floor is covered with wood shavings and debris. The overall lighting is soft and natural.
